DEGREE OVERVIEW

The Department of Oceanography offers Bachelor of Science and Bachelor of Arts degrees in oceanography and ocean studies respectively. The B.S. degree offers interdisciplinary education in one of four concentrations in ocean science: Marine Ecosystem Processes (MEP), Marine Chemistry and Geochemistry (MCG), Ocean Observing Systems and Technology (OOST), Ocean Climate (OC). Meanwhile, the B.A. program combines oceanographic knowledge with a university-approved minor, focusing on areas crucial to the growing Blue Economy.

UNDERGRADUATE RESEARCH

The Department of Oceanography at Texas A&M University explores the world to investigate the defining questions of the oceans' future, present, and past. The faculty in the Department of Oceanography are making global strides in their research areas, participating in active research programs around the world. Four affiliated centers enhance the research opportunities and access to equipment and seagoing expeditions: the Geochemical and Environmental Research Group (GERG), the International Ocean Discovery Program (IODP), Texas Sea Grant, and the Radiogenic Isotope Geosciences Facility (RIGF).
